Building on Rutgers’ distinguished history of science communication research, teaching, and practice, the Rutgers Science Communication Initiative is pleased to announce a monthly seminar series that will showcase innovations in science communication and support a community of practice focused on building capacity for effective science communication at Rutgers and beyond. This series will bring together members of the Rutgers community and outside speakers and guests, to share work to advance science communication and pursue potential research collaborations and training initiatives.

**Schedule**

**September 22, 2020**
4:00-5:30 pm
*From knowledge to action and back: Advancing science communication at Rutgers*
Keynote speaker: Dr. Alan Leshner
CEO Emeritus of the American Association for the Advancement of Science and Chair of the Committee on the Science of Science Communication, National Academies of Sciences, Engineering, and Medicine.
