

# Faculty Workshop in Mentoring Biomedical Grad Students and Postdocs

- The NIH requires faculty to be trained in how to mentor PhD students and postdocs.
- Even faculty who have mentored dozens of graduate students and postdocs can improve their skills in mentoring.
- Lessons and interactive case studies will be from the Center for the Improvement of Mentored Experiences in Research (CIMER).
- **An additional focus this year will be on navigating power dynamics in academic labs.**
- Interactions with fellow faculty will help you reflect on various mentoring situations and enhance your readiness to work with mentees and anticipate new situations.
- All faculty are invited and **junior faculty are strongly encouraged** to attend.
- Your attendance at these workshops make our programs more competitive for training grants

**Friday September 26, 2025**

**10am-12pm**

**Lunch will be served**

**IN PERSON ONLY:** RWJMS Research Tower, Deans Conference Room 123  
675 Hoes Lane West, Piscataway
