

The JHU Trial Innovation Center presents the virtual:

DIDACT Symposium

October 18, 2024 from 2 to 6 p.m. EDT

Join us for a virtual symposium highlighting contemporary methods for the efficient design and analysis of clinical trials. New tools and software will be discussed, and attendees will be provided with real-world examples using these innovative methods to aid in producing effective trials.

Joshua Betz, MS

Optimizing Baseline Covariates in Trials

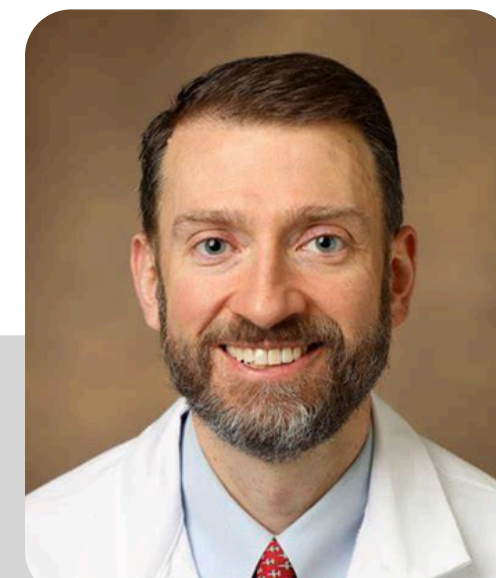

Michael Rosenblum, PhD

SMART-Design Approaches in Clinical Trials

Kelley Kidwell, PhD

Utilizing REDCap for Adaptive Randomization

Jonathan Casey, MD

An Example Bayesian Fully Sequential Clinical Trial Design and Its Performance

Frank Harrell, PhD
