

# Workshop on Graphical Abstracts

*Presented by*

**Sarah Treit, PhD**  
Owner  
Figures First Consulting

In this 1-hour workshop, you will learn:

- The purpose of graphical (aka visual) abstracts & where they are used
- Key elements and level of detail that should be included
- How to create optimal information flow
- Basic elements of effective design (alignment, spacing, hierarchy and color use)
- How to distinguish effective versus ineffective graphical abstracts in published literature
- Programs and resources you can use to create your next one!
