RUTGERS HEALTH

Learning Health System
Research Project Award Program
2024 Request for Applications

The Learning Health System Scientist Training and Research (LHS STAR) NJ Program is requesting applications for research projects that will:

- Use LHS Science methods of Comparative Effectiveness Research, Dissemination & Implementation Science, and Patient-Centered Outcomes Research
- Identify existing best practices or develop innovations to improve the quality, safety, outcomes, efficiency, equity, and patient-centeredness of care
- Aim to improve the care of patients and populations served by our academic health system, partner health systems, and affiliated institutions
- Produce findings that can be implemented into real-world practice

2-4 projects funded per cycle

Up to $100,000 per project

Who is eligible? Faculty affiliated with Rutgers University and full-time employees at RWJBH, University Hospital Newark, or other LHS STAR NJ institutional partners. Non-Rutgers applicants must include a Rutgers faculty member as a Co-Investigator or Co-PI.

To review the RFA and submit an LOI, please visit:
