NJ ACTS Special Populations Core 2022 Seminar Series:

Tuesday, February 8, 2022

Zoom: 1:00pm - 2:00pm ET

Presented By:

Brandon D. L. Marshall, PhD
Associate Professor of Epidemiology
Brown University

Supervised Consumption Sites and Overdose Prevention in the United States: Possibilities, Prospects, and Challenges

In this seminar, Professor Marshall will discuss the state and science of supervised consumption sites - also known as overdose prevention centers - in the United States. Drawing from experiences and research in other countries, he will discuss the role such facilities might play in responding to the nation's overdose crisis.
