

Pilot FAQs

Q: I have an active NJ ACTS Pilot Grant award. Can apply for a second award to continue this project?

A: Current recipients of NJ ACTS Pilot Grants cannot apply for awards in the same category or for the same project for which they have funding. They can apply for a different project in a different Pilot Grant category.

Q: Can [name of organization] be a valued partner?

A: The category of 'valued partner' is broad, recognizing that there are many entities that can bring 'value' to a research project. The only limitation is that the entity bring something of real value to the project. It can be access to their patient population (and the computing necessary to develop the data dump) or access to a piece of equipment or funding, etc.
